## Description

POCKET SHARP CONTAINER 0.4 l - 12.3x6.2xh 16.5 cm

Single use container for both sharp and cutting waste disposal.

The permanent and inviolable closure that prevents waste leakage and the high container resistance guarantee top quality and safety.

Equipped with a patented double opening system, it can be used by just one hand.

The double opening includes one side with needles and insulin pen removal, and the other side with a large opening for entire syringe disposal.

Features:
Pocket size
Ergonomic shape
Practical opening system
Needles removal
Insulin pen removal device
Maximum filling level
Shock resistant
Puncture resistant
Sturdy handle
Possible side fastening
Autoclavable at 134°C for 18'
No emission of any harmful gas during the incineration process

Made in Italy.
