Compatible patient cables for electrocardiography and exercise stress tests.
In order to ensure the patient's safety under any circumstance, we have supplied all our cables with an independent defibrillation protection.
Quality is ensured by the design, the manufacturing process and the final tests performed through computerised workstations.

Standard cable length 2.2 m (from connector to yoke), chest leads 0.76 m, limb leads 1.2 m.
Few cables with 3.5 m length to improve usability in exercise stress tests.
Multilingual instructions: GB, FR, IT, ES, PT, DE, GR, RO.
