Description

ETHYLENE OXIDE STRIPS - box of 250 dual strips

Type 5 Ethylene Oxide (EO) indicator strips are designed to be used at E.O. sterilizers in compliance with ISO 11135.
The indicator strips can be used in every pack and will provide assurance of E.O. gas penetration into the packs.
The water based, non-toxic chemical indicator in compliance with ISO 11140-1 will show a clear colour change from white to yellow after successful sterilization.
Test indicator strips are cost effective and can be divided into two separate pieces for economical use.
