Description

3M™ SURGICAL CLIPPER STARTER KIT (CLIPPER + CHARGER) - 9667L-E

The 3M surgical clipper with its unique pivoting head (when used with 3M clipper blades 9660 code 27055) is a safe, reliable and easy to use device providing a comfortable clipping experience for patients.

Longlasting battery with a short recharge time, a battery indicator light, an ergonomically designed handle and submersibility. What's the result? A better clipping experience for both you and your patient.

Experience the difference a pivoting head makes: When used with the 9660 blade, the unique pivoting head conforms to body contours, making it easy to provide a comfortable clipping experience for patients. You can efficiently cut through all types of head and body hair, wet or dry, in a single pass.

Ergonomic handle with charger.
Single use clipper blade individually sealed.
Clipper blade for head and heavy body hair.

Two type of clipper blades available:
• 3M™ SURGICAL CLIPPER BLADES - 9660 - pivoting (code 27055)
• 3M™ SURGICAL CLIPPER BLADES - 9690 - non pivoting (code 27056)

Technical Specifications

Features of the clipper with PIVOTING blades 9660 (code 27055)
• Pivoting head
• Ergonomically designed handle that's easy to hold
• Easy-to-attach blade
• Cuts through all types of head and body hair, wet or dry, in a single pass
• Away-from-the-skin cutting blade minimizes potential for nicks or cuts, which helps reduce the risk of SSIs (surgical site infections)
• Li-ion battery designed to hold a charger longer and battery indicator light
• Approximately 160 minutes of run time on a four-hour recharge
• Submersible for easy cleaning (meets IP X7 rating of submersible in water no deeper than 1 m for up to 30 min)

Features of the clipper with NON pivoting blades 9690 (code 27056)
• Ergonomically designed handle that's easy to hold
• Easy-to-attach blade
• Quickly and effectively removes hair in trauma and neuro cases
• Away-from-the-skin cutting blade minimizes potential for nicks or cuts, which helps reduce the risk of SSIs (surgical site infections)
• Li-ion battery designed to hold a charger longer and battery indicator light
• Approximately 160 minutes of run time on a four-hour recharge
• Submersible for easy cleaning (meets IP X7 rating of submersible in water no deeper than 1 m for up to 30 min)
