AMBU MAN ADVANCED

GIMA
ARTICOLI & APPARECCHI PER MEDICINA

Product Code	34040
Unit of sale	1 pc
Minimum order	1
Type	No medical device
Class	

UK-REP	Not required
CH-REP	Not required
EAN/UPC	5707480133857

Description

Professional training manikin made to fulfil all the needs of Advanced Life Support (ALS) training.
The focus of the manikin is on the algorithm: Airway Management, ECG simulation, defibrillation and the training of i.v. access technique.

Integrated Ambu Wireless Technology: the browser-based Ambu Manikin Management Module allows the wireless control, documentation and monitoring of the trainee's performance through the central interface, where all data and information come together: compression depth, correct hand position, ventilation volume, stomach inflation.

Customised scenario training: the intuitive user interface allows a quick and easy creation of custom scenarios and adapt them to different course concepts, in accordance to the demand of instructors and the current ERC / AHA guidelines. The CPR parameters and manual events are documented wirelessly and included into the evaluation and debriefing.

Individual trainee evaluation in group: more efficient training, each participant receives his personal results (up to four participants).

Technical Specifications

Mouth to Mouth ventilation: NON
Mouth to nose ventilation: NON
Bag-valve-mask ventilation: YES
Use of Guedel airways: YES
Airway management: Et tube, laryngeal tube & mask and other SGAs: YES
Jaw-thrust manoeuvre: YES
Gastric insufflation: YES
Ambu hygiene system: NON
Chest compression: YES
Max compression depth: 7 cm
Max insufflation: 1.2 litres
Hand position display: YES
Infinitely adjustable chest stiffness: YES
Pulse: electrical
Placement of defibrillation electrodes: YES
Defibrillation: YES
I.V. access (need IV trainer 34041): optional
Wireless CPR software: YES
ECG display: YES
Carrying bag: YES
Weight: 13.3 Kg
