CH-REP	Not required

EAN/UPC	5707480134939
PARAF	950834236

Description

Training manikin for education in school of all procedures for basic life support resuscitation.
It can be used for realistic training of external chest compressions and the placement of AED pads.
The unique hygienic system prevents cross contamination when demonstrating and training of the principals of ventilation through mouth and nose.

Guideline conform: it allows to perform CPR training following the latest international CPR guidelines.

Compact and portable: it has a low weight and compact packaging.

Easy AED training: due to the closed shaped torso, defibrillation pads can be placed to perform a realistic AED training.

Technical Specifications
