Description

Pediatric Compatible pads - disposable
(CPR guidelines state 8 years as limit age for pediatric treatment, corresponding to about 25 kg according to standard growth curves)

These pads have an energy reduction system: defibrillator output of 150J is reduced to 50J.
International compliance to regulation as above adult compatible pads.
Latex free.
Made in Italy.

Multilingual envelope: GB, FR, IT, ES, PT, DE, NL, SE, GR, RU.

Compatible with:

• Philips Laerdal Medical
- Heartstart FR2 AED M3841A & M3861A
- Heartstart FR2 AED, with ECG module 3840A, M3861A, 3860A
