BRN

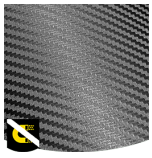

Electrostatic Discharge (ESD)
ESD provides the controlled discharge of electrostatic energy that can damage electronic components and avoids risks of ignition resulting from electrostatic charges. Volume resistance between 100 KiloOhm and 100 MegaOhm.

Heat resistant outsole (HRO)
The outsole resists high temperatures up to 300°C.

Ladder Grip (LG)
Especially defined contour in the shank area of a safety shoe to provide additional safety while standing on ladders.

Metal free
Metal free safety shoes are in general lighter than regular safety shoes. They are also very beneficial for professionals who have to pass through metal detectors several times a day.

Nano carbon toecap
Ultralight high-tech material, metalfree with no thermal or electrical conductivity.

Waterproof (WR)
Waterproof footwear prevents liquids to enter into the shoe.
